2-POWER®

HUB0107A

USB 3.0 TO 4K DISPLAYPORT ADAPTER

Add 4K Ultra HD display devices to your computer using USB 3.0.

2-POWER's USB 3.0 to 4K DisplayPort adapter allows you to connect a 4K display to your computer even if your video card doesn't natively support 4K output. You can easily connect up to 6 display devices without having to install extra video cards. The adapter uses very little resources, ensuring you get quality display without comprising computer performance.

Features

- DisplayPort (up to 3840 x 2160)
- Add 4K Ultra HD displays to legacy computers
- Use up to 6 adapters together
- Extended or Mirror display modes
- USB bus-powered

Application

Mirror Mode

Extended Mode

Using Dual Adapters
(Extended Mode)
